

### OMNIALARM & COMPUTERISED ELECTRONIC ALARMS

Omnilarm Single-Zone basic model

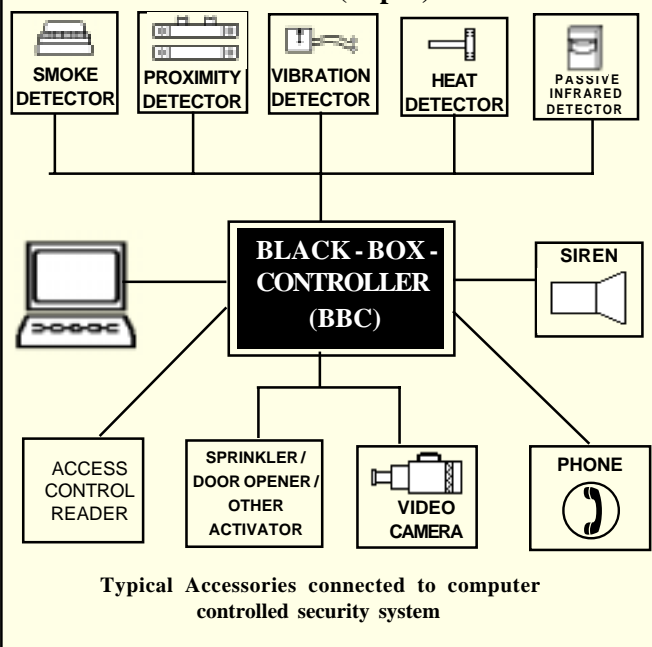

Omnilarm 3-Zone Multi-option model

\* Patents, Trademarks & Copyrights

**Description:** Omnilarm® Electronic Watchdog security systems are solid-state electronic alarms offering high reliability with low power consumption. The proven trouble-free performance ensures 24-hour surveillance and early warning against natural and un-natural security breaches & disasters. The systems permit low initial investment with ability to increase facilities with low-cost or high-end detectors. A simple push-button alarm system can be expanded into a comprehensive fire-cum-burglar alarm system. The Single-Zone Omnilarm, being the basic model, is the lowest cost security panel with few options. Omnilarm has been manufactured since 1974 & therefore has a long track record of serving thousands of customers all over India and many parts of the world, with almost nil maintenance. If the Single-Zone facility is a disadvantage the 3-Zone programmable system offers many options with zone identification and also facility to add on automatic telephone diallers with 4 programmable numbers and non-volatile voice recording. For large, sophisticated high security installations, computer controlled systems in the Omnilarm-Super range are available, including wireless security systems. The computer controlled systems also provide facilities in access control.

#### Omnilarm® (Super)

#### Specifications:

- Mains operating voltage : 230V A.C., 50 Hz (or 115V A.C., 60 Hz) single phase supply
- D.C. operating voltage : 6V, 9V or 12V (depending on model)
- Power Consumption : a) With unit 'ON' but siren 'OFF' - less than 1 watt  
b) With unit 'ON' & siren 'ON' - 10 to 50 watts (depending on model)
- Exit Time Delay : 120 seconds to 150 seconds or as per requirement
- Entry Time Delay : 60 Seconds
- Susceptibility to EMI : Nil
- Sound Output level : 85 to 120 dB (depending on model)
- Approximate Size : 235 x 210 x 70 mm
- Other Models : Omnilarm Super and also 16-Zone and 8-Zone Multi function Units.
